A. Policy

The purposes of this policy creating a procurement system for the College include:

1. Providing for confidence in College procurements;
2. Ensuring fair and equitable treatment of all persons who deal with the College procurement system;
3. Providing safeguards for maintaining a College procurement system of quality and integrity, consistent with conflicts of interests requirements and other requirements of law, regulations and grants;
4. Fostering effective broad-based competition to the extent practicable;
5. Obtaining maximum benefit from the public funds available to the College to purchase necessary and beneficial College mission-related materials and services;
6. Providing increased efficiency and timeliness in College procurements;
7. Assuring compliance with changing requirements of law and regulations;
8. Supporting governmental priorities and responsibilities, including appropriate encouragement and support for minority contracting and use of environmentally conscientious materials and services; and
9. Ensuring that the College utilizes and leverages its purchasing power directly, and through other governmental entities, to meet educational and institutional needs in a timely, economical, effective and responsible way.

B. Responsibility

The responsibility for meeting the procurement requirements of the College is delegated to the President. The President may sub-delegate this responsibility and may promulgate procedures that ensure that procurements by the College are consistent with this Policy.

C. Awarding Authority

1. Board of Trustees.
 - a. Consistent with its powers and duties set forth in State Law, the

Board of Trustees has authority to enter into agreements for the establishment and operation of the College as it deems advisable.

- b. The Board of Trustees delegates this power to procure and enter into agreements for materials and services to the President (who may sub-delegate) as follows, subject to the additional provisions below:
 - 1. Competitive sealed bid awards up to \$250,000;
 - 2. Competitive sealed proposals up to \$250,000;
 - 3. All contract changes, modifications or supplemental services up to \$250,000, or an addition to original contract value of no more than 25% if originally approved by the Board of Trustees;
 - 4. Sole source awards below \$100,000;
 - 5. Special Procurements listed below.
- c. For all procurements for which the Board of Trustees is the awarding authority and the authority to procure is not delegated to the President, the Board of Trustees shall approve the procurement by resolution, upon recommendation from the President.

II. Methods of Procurement

A. Competitive Sealed Bidding

All contracts shall be awarded by competitive sealed bids unless such contract is below the threshold required for such competitive sealed bids, the contract is determined to be more appropriate for award as a result of competitive sealed proposals (see B below), the contract is a Special Procurement as defined below or the Director of Procurement determines that:

- 1. Specifications cannot be prepared that permit an award on the basis of lowest bid price or lowest evaluated bid price; or
- 2. The price of any service or supply required is regulated by the Public Service Commission; or
- 3. There is only one available source (Sole Source); or
- 4. There is an unanticipated emergency which leaves insufficient time to use this method; or
- 5. There is some other reason in the best interest of the College to use one of the other authorized methods.

B. Competitive Sealed Proposals

Competitive sealed proposals may be used if:

1. The procurement is for educational or consultant services;
2. The procurement is for any building, improvement, equipment, or supplies and the Director of Procurement determines that specifications cannot be prepared that allow an award based on the lowest bid price, the lowest evaluated bid price, or the bid most favorable to the College; or
3. The Director of Procurement determines that:
 - a. The need to use a method other than competitive sealed bids is sufficiently compelling to override the general public policy that favors awarding procurement contracts on the basis of competitive sealed bids; and
 - b. The use of competitive sealed bidding for that procurement contract is not practicable or not advantageous to the College.
4. A procurement contract based on the use of competitive sealed proposals may be awarded by the Awarding Authority, after obtaining any approval required by law, to the responsible offeror who submits the proposal or best and final offer determined to be the most advantageous to the College considering the evaluation factors set forth in the request for proposals.

C. Special Procurements

1. Purchases of print and non-print library and learning resource material.
2. Merchandise purchased for re-sale.
3. Any awards made through contracts issued or purchases made by or for a public entity or state or local government for the College under procedures authorized by the Montgomery County Charter or state law shall be made by the President, or designee. The College will determine in each instance:
 - a. That the public entity or entity purchasing on behalf of the public entity has complied substantially with the formal competitive bidding requirements of the Annotated Code of Maryland, Section 16-408; and
 - b. That the terms and conditions of the agreement are consistent with the needs of the College.
4. Consistent with the provisions of Section 213 of the Montgomery County Charter and the provisions of the Montgomery County Code 11B-4(a), contracts for the services of special legal counsel or for the services of experts, consultants and investigators, deemed appropriate by the General Counsel, whether in anticipation of litigation or in preparation for

a trial or a compliance issue.

5. Emergency procurements in which the Director of Procurement determines that there is not sufficient time to procure through a sealed competitive bid or proposal in order to timely meet a bona fide requirement of the College, including emergency repairs and other urgent procurement actions.

6. Cooperative purchases.

The Director of Procurement shall have the authority to join other units of state and local government which may include third party entities in cooperative purchasing plans when the best interests of the College would be served, in order to take advantage of maximum volume discounts.

7. Inter-governmental purchases

The Director of Procurement shall have the authority to contract for goods and services with a Federal, State or local government or agency, political subdivision of a state or a state school or school system when the best interests of the College would be served thereby.

D. Sole Source Procurement Contracts

E. Compliance

1. The procedures promulgated to administer the procurements under the procurement system created by this Policy and the Procurement Office charged with administration of the procurement system shall comply with all applicable laws, regulations, and the policies of the Board of Trustees, including specifically the purposes set forth in I.A. of this Policy.
2. Except as otherwise provided, a contract which is entered into in violation of the Awarding Authority or the Methods of Procurement as contained in this Policy is void, unless it is determined, upon review, that good faith has been shown by all parties, and that there has been substantial compliance with these policies and procedures. If a contract is void, any

contractor who entered the agreement in good faith and without knowledge of any violation or contribution to any violation prior to award may be compensated for actual costs incurred.

III. Reporting

- A. Procedures promulgated to administer the procurement system shall provide for regular reports to the President, on a least an annual basis or as may otherwise be required in this Policy.
- B. The Procurement Office shall produce and deliver to the President a summary report of all procurements in the following categories in such form and detail as may be required in procedures:

In accordance with applicable procedures, the president or designee shall establish a minority business utilization program to facilitate the participation of responsible certified minority business enterprises in contracts awarded by the President or designee or the Board of Trustees in accordance with competitive sealed bids or proposals, with the result that minority businesses receive a fair share of College contracts. Nothing shall be construed as authorizing awards that are fiscally disadvantageous to the College, or that confer any special privilege or status upon any minority business or group or individual representing a minority business. Certified minority business enterprises shall be defined in the procedures.

 - 7. To use for competitive purchasing purposes, only with consent, original ideas and designs devised by one vendor.
 - 8. To accord a prompt and courteous reception insofar as conditions permit to all who call on legitimate business missions.

C. Market Conditions

- 1. The Director of Procurement shall keep informed of current developments in the field of purchasing, prices, market conditions and new products.

2. The Director of Procurement shall maintain files of vendor catalogs and other current market information regarding goods and services to be made available to faculty and staff of the College.
3. The Director of Procurement shall maintain a qualified bidders list of vendors by commodity and shall review said list periodically to encourage an open and competitive environment to the extent possible.

D. Exceptions

1. Purchases of print and non-print library and learning resource material are noncompetitive items, available from a single source, and will be processed through Information Technology Learning Centers.
2. While merchandise purchased for resale is exempt from these policies, the Procurement Office may assist and advise limits to obtain the best fiscal advantage.
3. When it is determined to be in the best interest of the College, the Director of Procurement may utilize the procurement facilities of state or local government units. Unless otherwise directed, awards for procurements through other agencies shall be awarded by the President.

II. Methods of Procurement

A. General Requisition

1. The Director of Procurement will issue a requisition form to be used by College personnel to communicate goods and services needs to the Procurement Office.
2. The Director of Procurement will provide information regarding adequate lead time for processing, assistance in product choice, and necessary guidelines.

2. Specifications will be submitted for review by the Director of Procurement to the requester and the requester's immediate supervisor. The date, time and place of the bid opening will be clearly marked on all requests for bids. If a specific brand or patented goods or services are required by the College, and which are obtainable in two or more equally competitive brands, the Director shall list such acceptable brands and shall include the phrase "or equal" to invite alternate bids. It shall be incumbent upon the vendor to demonstrate satisfaction to the College that such alternates are equal to those listed in the request for bids.
