Test of Essential Academic Skills Review Log

SCIENCE LEARNING CENTER

Montgomery College, Takoma Park/Silver Spring Campus, SN, Room 101

Welcome to the Science Learning Center (SLC). The SLC has a variety of resources available to help you better prepare for the science section of the Test of Essential Academic Skills (TEAS). Tutoring is also available on a walk-in basis.

Before arriving to the SLC, make sure you have your TEAS Version V Study Manual and other materials (paper and pencil). Remember, calculators are **not** permitted when you take the TEAS.

In order to officially log your hours at the SLC, please follow the instructions below.

1. Each time you come to the SLC, please sign in on the computer located just inside the front door of SN101.
2. To record your test preparation activities, write information in the appropriate space below and check in with a staff person, not a student assistant, located in SN102 and have them enter the date and "Time In".
3. If you are meeting with a tutor, review science material until one is available.
4. Communicate to the tutor that you are preparing for the TEAS.
5. When the tutoring session is complete, list the subject(s) you reviewed in the table below and have the tutor sign your log; this signature verifies that you received tutoring at the SLC.
6. If you used other resources, list the subject(s) you reviewed and have a staff person, not a student assistant, enter your "Time Out" and his or her signature; the signature verifies that you have used the resources at the SLC.

If you are engaged in mandatory remediation, submit a copy of your completed log(s) at HS, room 130.

Student Name: _____

Date	**Subject(s)**	**Time In**	**Time Out**	**Tutored** (check on)		**Tutor (Staff) Signature**
				Yes	**No**
