* ENMA 300 and ENMA 301, for which MC has no equivalents, must be completed after transfer or through [MTAP](#).

** Follow this link for information about the 4-year programs [General Education](#) requirements at UMCP.

*** Students completing these courses will have four general education courses to transfer plus one UMCP course (ENMA 300).

[Maryland Transfer Advantage Program \(MTAP\)](#): Students planning transfer to UMCP should enroll in MTAP as soon as possible. Benefits include access to advising transfer advising at UMCP and tuition discounts on courses taken through MTAP at UMCP.

Advising Notes

¹CHEM 131/132 may be more appropriate than CHEM 135 for students who are taking MATH 096/MA098.

²CHEM 099 or a passing score on the Chemistry placement exam is required for CHEM 131 or CHEM135.

³MATH 096 and MATH 098 or equivalents are prerequisites for MATH 165.

Students taking the American English Language Writing (AELW)/American English Language Reading (AELR) course sequence should meet with an engineering advisor to determine appropriate math, physics, and engineering course enrollments.

*Students may meet prerequisites for first-semester curriculum courses by either successfully completing appropriate coursework in high school or achieving qualifying scores on SAT, AP, IB, or Accuplacer assessments. Students needing to complete prerequisites to first-semester curriculum may consider taking summer term courses.

**Note: EN 101 and MA 180 do not transfer as part of the BS engineering degree requirements at UMCP.

[Maryland Transfer Advantage Program \(MTAP\)](#): Students planning transfer to UMCP should enroll in MTAP as soon as possible. Benefits include access to advising transfer advising at UMCP and tuition discounts on courses taken through MTAP at UMCP.
