

Vision Statement:

We are committed to providing the highest quality teacher preparation experiences and individual support of all education students to ensure their success.

Mission:

The mission of the School of Education at Montgomery College is to provide high quality educational programs (consisting of both academic courses and field-based learning experiences) which prepare students as educators for diverse and inclusive communities of learners in environments that are culturally respectful of children and their families. We seek to develop the knowledge, skills, and dispositions required of the teaching profession. Teachers in the twenty-first century will need to be skilled as facilitators of active learning.

To promote this goal, faculty in the School of Education will be committed to participate actively in the College, the community, and with Montgomery County Public Schools, as teachers, advisors and mentors, and to use methods of instruction which emphasize active student learning.
